Prehistoric Humans in Film and Television

Michael Klossner 2015-01-09 From the early days of the movies, "cavemen" have been a popular subject for filmmakers—not surprisingly, since the birth of cinema occurred only a few decades after the earliest scientific studies of

prehistoric man. Filmmakers, however, were not constrained by the emerging science; instead they most often took a comedic look at prehistory, a trend that continued throughout the 20th century. Prehistoric humans also populated adventure-fantasy films, with the original *One Million B.C.* (1940) leading the charge. Documentaries were also made, but it was not until the 1970s that accurate film accounts of prehistoric humans finally emerged. This exhaustive work provides detailed accounts of 581 film and television productions that feature depictions of human prehistory. Included are dramas and comedies set in human prehistory; documentaries; and films and television shows in which prehistoric people somehow exist in historical periods—from the advent of civilization up to the present—or in extraterrestrial settings. Each entry includes full filmographic data, including year of release, running time, production personnel, cast information, and format. A description of each film provides background on the prehistoric elements. Contemporary critical commentary is included for many of the works.

True Indie Don Coscarelli 2018-10-02 From Don Coscarelli, the celebrated filmmaker behind many cherished cult classics comes a memoir that's both revealing autobiography and indie film crash course. Best known for his horror/sci-fi/fantasy films including *Phantasm*, *The Beastmaster*, *Bubba Ho-tep* and *John Dies at the End*, now Don Coscarelli's taking you on a white-knuckle ride through the rough and tumble world of indie film. Join Coscarelli as he sells his first feature film to Universal Pictures and gets his own office on the studio lot while still in his teens. Travel with him as he chaperones three out-of-control child actors as they barnstorm Japan, almost drowns actress Catherine Keener in her first film role, and transforms a short story about Elvis Presley battling a four thousand year-old Egyptian mummy into a beloved cult classic film. Witness the incredible cast of characters he meets along the way from heavy metal god Ronnie James Dio to first-time filmmakers Quentin Tarantino and Roger Avary. Learn how breaking bread with genre icons Tobe Hooper, John Carpenter and Guillermo Del Toro leads to a major cable series and watch as he and zombie king George A. Romero together take over an unprepared national network television show with their tales of blood and horror. This memoir fits an entire film school education into a single book. It's loaded with behind-the-scenes stories: like setting his face on fire during the making of *Phantasm*, hearing Bruce Campbell's most important question before agreeing to star in *Bubba Ho-tep*, and crafting a horror thriller into a franchise phenomenon spanning four decades. Find out how Coscarelli managed to retain creative and

financial control of his artistic works in an industry ruled by power-hungry predators, and all without going insane or bankrupt. True Indie will prove indispensable for fans of Coscarelli's movies, aspiring filmmakers, and anyone who loves a story of an underdog who prevails while not betraying what he believes.
