The Woody Plant Seed Manual Part I Franklin T. Bonner 2017-07-08 The first comprehensive handbook on the seeds of trees and shrubs produced by the USDA Forest Service was USDA Misc. Pub. 654, Woody-Plant Seed Manual. The manuscript was ready for publication in 1941, but World War II delayed publication until 1948. The boom in tree planting in the 1950s and 1960s created a large demand for seeds and exposed the gaps in our knowledge concerning production and quality of seeds of woody plants in general. The 1974 Handbook proved to be very popular both in this country and abroad, leading to five printings and translations in several other languages. More than a quarter-century after its publication, however, numerous advances in tree seed technology have dictated that a new revision is needed; the result is the current volume. Part I contains information on how to get seeds and raise seedlings. Get Your Copy Now.

TIP 35: Enhancing Motivation for Change in Substance Use Disorder Treatment (Updated 2019) U.S.

Department of Health and Human Services 2019-11-19 Motivation is key to substance use behavior change. Counselors can support clients' movement toward positive changes in their substance use by identifying and enhancing motivation that already exists. Motivational approaches are based on the principles of person-centered counseling. Counselors' use of empathy, not authority and power, is key to enhancing clients' motivation to change. Clients are experts in their own recovery from SUDs. Counselors should engage them in collaborative partnerships. Ambivalence about change is normal. Resistance to change is an expression of ambivalence about change, not a client trait or characteristic. Confrontational approaches increase client resistance and discord in the counseling relationship. Motivational approaches explore ambivalence in a nonjudgmental and compassionate way.

Gender and Climate Change Financing Mariama Williams 2015-08-27 This book discusses the state of global climate change policy and the financing of climate resilient public infrastructure. It explains the sources of tensions and conflict between developing and developed countries with regard to global climate protection policies, and highlights the biases and asymmetries that may work against gender equality, women's empowerment and poverty eradication. **Gender and Climate Change Financing: Coming Out of the Margin** provides an overview of the scientific, economic and political dynamics underlying global climate protection. It explores the controversial issues that have stalled global climate negotiations and offers a clear explanation of the link between adaptation and mitigation strategies and gender issue. It also maps the full range of public, private and market-based climate finance instruments and funds. This book will be a useful tool for those engaged with climate change, poverty eradication, gender equality and women's empowerment.

Coastal Environments K. S. Jayappa 2013-12-30 Coastal Environments: Problems and Perspectives display the impact of natural forces and processes on man and also the impact of man on the coastal environment.

The exploitation of natural mineral resources, navigation and recreation activities are an integral part of the problems and perspectives of coastal environments. This volume highlights various processes, particularly sediment transport, coastal erosion and its management, landform evolution and resources of the coastal region. The case studies are presented under each section. The availability of comprehensive basic scientific data is vital for effective coastal zone management. There are sixteen papers together on coastal resources, coastal landforms, coastal erosion, sediment transport and dredging and all these add the scientific information for coastal zone management. The last section of the book comprises the papers on application of remote sensing in environmental studies and two assorted papers on surface run-off and flora of Gondwanaland. The causes for coastal erosion, the present scenario of erosion along Kerala and Karnataka coasts and the mitigation procedures have been explained in this book. The utility of seawalls and other protection structures in arresting coastal erosion has been discussed and debated in detail.

Towards New Global Strategies: Public Goods and Human Rights Erik André Andersen 2007-08-13 This book aims to contribute to the debate on global public goods, a debate which has been taking place for some time in the UN and the World Bank, among the regional development banks and bilaterally among states and donors. There is a need for new visions and strategies and to examine global infrastructure on the basis of the idea that global public goods, including human rights, contribute to cohesion at local, regional and international levels. The book investigates the possibilities and disadvantages of applying the idea of public goods in a global context. It explains the history of the concept and its significance for human rights. The authors include, in addition to academics, representatives from public institutions, civil society organizations, independent consultants, the media and the private sector.
