**Quilting Guide for Beginners** Ellen Mullet  
2021-10-23 Quilting is the process of securing

three layers of fabric together, usually be stitching them by hand or machine. Most quilts have the following layers, which form a "quilt sandwich"... A fabric top layer (also known as a quilt top) A fabric backing layer A layer of wadding or batting in the middle. Quilting can be done with simple hand stitches or knots, or with a sewing machine. The pattern of the quilting stitches can be simple for beginners or elaborately decorative. Most quilters use a basic sewing machine to make their quilts, but you can also get specialist long arm machines, which have a bigger area to hold your quilt, making it easier to feed larger quilts through the machine. Whether hand or machine-sewn, quilting stitches are usually small and spaced close together, to prevent the fabric from shifting and moving around over time.
