Textual Translation and Live Translation Fernando Poyatos 2008 After the many interdisciplinary perspectives on nonverbal communication offered by the author in his previous seven John Benjamins books, which have generated a wide range of scholarly applications, the present monograph is dominated by a very broad concept of translation. This treatment of translation

includes theater and cinema (enriching our intellectual-sensorial experience of both 'reading act' and 'viewing act') and offers among other topics: sensorial-intellectual-emotional pre- and post-reading interactions with books; mute or audible 'oralization' of texts; the translator's linguistic and nonverbal-cultural fluency and implicit textual paralinguistic and kinesics; translating functions of pictorial illustrations; the blind's text and film perception; the foreign reader's cultural background and circumstances; theater and cinema spectators' total sensory-intellectual experience of plays and films beyond staging or projection; the multiple interrelationships between cinema and theater performers, spectators and their environments, of special interest to all those involved in the theater; and the translator's challenging textual perception of sounds and movements. Over 800 literary quotations, and two virtually exhaustive English inventories of sound- and movement-denoting words with many examples, offer serious students of translation, language or literature a rich reference and drill source.

Hollywood Highbrow Shyon Baumann

2007-10-14 Today's moviegoers and critics generally consider some Hollywood products--even some blockbusters--to be legitimate works of art. But during the first half century of motion pictures very few Americans would have thought to call an American movie "art." Up through the 1950s, American movies were regarded as a form of popular, even lower-class, entertainment. By the 1960s and 1970s, however, viewers were regularly judging Hollywood films by artistic criteria previously applied only to high art forms. In *Hollywood Highbrow*, Shyon Baumann for the first time tells how social and cultural forces radically changed the public's perceptions of American movies just as those forces were radically changing the movies themselves. The development in the United States of an appreciation of film as an art was, Baumann shows, the product of large changes in Hollywood and American society as a whole. With the postwar rise of television, American movie audiences shrank dramatically and Hollywood responded by appealing to richer and more educated viewers. Around the same time, European ideas about the director as artist, an easing of censorship, and the development of art-house cinemas, film festivals, and the academic field of film studies encouraged the idea that some American movies--and not just European ones--deserved to be considered art.

The Film Paintings of David Lynch Allister Mactaggart 2014-05-14 One of the most distinguished filmmakers working today, David Lynch is a director whose vision of cinema is firmly rooted in fine art. He was motivated to make his first film as a student because he wanted a painting that "would really be able to move." Most existing studies of Lynch, however, fail to engage fully with the complexities of his films' relationship to other art forms. *The Film Paintings of David Lynch* fills this void, arguing that Lynch's cinematic output needs to be considered within a broad range of cultural references. Aiming at both Lynch fans and film studies specialists, Allister Mactaggart addresses Lynch's films from the perspective of the relationship between commercial film, avant-garde art, and cultural theory. Individual Lynch films—*The Elephant Man*, *Blue Velvet*, *Twin Peaks*, *Lost Highway*, *The Straight Story*, *Mulholland Drive*, *Inland Empire*—are discussed in relation to other films and directors, illustrating that the solitary, or seemingly isolated, experience of film is itself socially, culturally, and politically important. *The Film Paintings of David Lynch* offers a unique perspective on an influential director, weaving together a range of theoretical approaches to Lynch's films to make exciting new connections among film theory, art history, psychoanalysis, and cinema.
