The Civil Engineering Handbook W.F. Chen
2002-08-29 First published in 1995, the award-
winning Civil Engineering Handbook soon
became known as the field's definitive reference.
To retain its standing as a complete,
authoritative resource, the editors have
incorporated into this edition the many changes
in techniques, tools, and materials that over the
last seven years have found their way into civil
engineering research and practice. The Civil

Engineering Handbook, Second Edition is more
comprehensive than ever. You'll find new,
updated, and expanded coverage in every
section. In fact, more than 1/3 of the handbook is
new or substantially revised. In particular you'll
find increased focus on computing reflecting the
rapid advances in computer technology that has
revolutionized many aspects of civil engineering.
You'll use it as a survey of the field, you'll use it
to explore a particular subject, but most of all
you'll use The Civil Engineering Handbook to
answer the problems, questions, and
conundrums you encounter in practice.

Highway-rail Grade Crossing Surfaces Hoy A. Richards 1998 This synthesis will be of interest to state and local highway personnel who are responsible for the design, construction, and maintenance of road surfaces and to railroad personnel with similar responsibilities associated with highway-rail grade crossings. It will also be of interest to manufacturers and suppliers of pavement and track materials for

crossings. It presents information on the current practices related to highway-rail grade crossing surfaces, including the design and selection of crossing surface materials. This report of the Transportation Research Board describes the various types of highway- rail crossing surfaces, and the issues related to design, operation, and maintenance. Design elements include intersection geometry; drainage; special users, such as bicyclists; and descriptions of failures and their causes. Information is presented on crossing material selection factors, including life-cycle costs and on state practices in selection. Funding issues are also discussed.
