Women In The Cities Of Asia James T Fawcett

2019-03-20 Women in Asia are on the move. Alone in Antarctica Felicity Aston 2014-10-14

In the whirling noise of our advancing technological age, we are seemingly never alone, never out-of-touch with the barrage of electronic data and information. Felicity Aston,

physicist and meteorologist, took two months off from all human contact as she became the first woman -- and only the third person in history -- to ski across the entire continent of Antarctica alone. She did it, too, with the simple apparatus of cross-country, without the aids used by her predecessors -- two Norwegian men -- each of whom employed either parasails or kites. Aston's journey across the ice at the bottom of the world asked of her the extremes in terms of mental and physical bravery, as she faced the risks of unseen cracks buried in the snow so large they might engulf her and hypothermia due to brutalizing weather. She had to deal, too, with her emotional vulnerability in face of the constant bombardment of hallucinations brought on by the vast sea of whiteness, the lack of stimulation to her senses as she faced what is tantamount to a form of solitary confinement. Like Cheryl Strayed's *Wild*, Felicity Aston's *Alone in Antarctica* becomes an inspirational saga of one woman's battle through fear and

loneliness as she honestly confronts both the physical challenges of her adventure, as well as her own human vulnerabilities.

Domestic Violence in International Context

Diana Scharff Peterson 2016-12-19 Domestic violence does not discriminate and is prevalent throughout the world regardless of race, age or socio-economic status. Why, then, do reactions and response differ so widely throughout the world? While some countries work diligently to address the matter through prevention and training, others take a 'hands-off' approach in their response. This book is one of the first to investigate domestic violence on a global scale and provides best practices gleaned from various countries around the world to paint a detailed picture of how police response to domestic violence is currently being conducted and provide training bodies with up-to-date information to enhance current curricula.

Domestic Violence in International Context brings together expert scholars native to twelve different countries to examine the history and scope of domestic violence and how it is being addressed, repressed or ignored in their thirteen respective countries. Their specialised knowledge and unique data come together to create a series of snapshots that will guide nations, societies and communities worldwide in formulating effective strategies to prevent, intervene and combat this epidemic, and examine partnerships and programmes already in place. This book is essential reading for practitioners, policy makers, and human rights organisations, as well as students and scholars of criminology, social work, sociology and law.

God's Promises for Girls Jack Countryman
2010-05-23 An easy way to help young girls see God's promises and how they can rely on His love in their daily lives. The promise verses in this book are selected from the best-selling International Children's Bible® to offer comfort

and encouragement when a girl is feeling afraid, lonely, worried, angry, dissatisfied, discouraged, sad, rebellious, impatient, or sick . . . and when they need reassurance of God's protection, love, forgiveness, help . . . and that He listens when they pray. It's a great way for children to hide God's Word in their hearts. Sample text: Monsters. Spiders. Being alone. Do any of these things make you feel afraid? When you start to feel fear, hold on tight to these words: God promises to take your fear away! "So don't worry, because I am with you. Don't be afraid, because I am your God. I will make you strong and will help you. I will support you with my right hand that saves you." Isaiah 41:10

Reinventing the Wheel Bronwen Percival
2017-09-05 "Reinventing the Wheel is equal parts popular science, history, and muckraking. Over the past hundred and fifty years, dairy farming and cheesemaking have been transformed, and this book explores what has been lost along the way. Today, using cutting-edge technologies like high-throughput DNA sequencing, scientists are beginning to understand the techniques of our great-grandparents. The authors describe how geneticists are helping conservationists rescue rare dairy cow breeds on the brink of extinction, microbiologists are teaching cheesemakers to nurture the naturally occurring microbes in their raw milk rather than destroying them, and communities of cheesemakers are producing

"real" cheeses that reunite farming and flavor, rewarding diversity and sustainability at every level."--Provided by publisher.

The Proscription of Terrorist Organisations Lee Jarvis 2020-06-29 Powers to outlaw or proscribe terrorist organisations have become cornerstones of global counter-terrorism regimes. In this comprehensive volume, an international group of leading scholars reflect on the array of proscription regimes found around the world, using a range of methodological, theoretical and disciplinary perspectives from Political Science, International Relations, Law, Sociology and Criminology. These perspectives consider how domestic political and legal institutions intersect with and transform the use

of proscription in countering terrorism and beyond. The chapters advance a range of critical perspectives on proscription laws, processes and outcomes, drawing from a global range of cases including Australia, Canada, the EU, Spain, Sri Lanka, Turkey, the UK and the USA. Using single and comparative cases, the authors emphasise the impacts of proscription on freedoms of speech and association, dissent, political action and reconciliation. The chapters demonstrate the manifold consequences for diasporas and minorities, especially those communities linked to struggles overseas against oppressive regimes, and stress the significance of language and other symbolic practices in the justification and extension of proscription powers. The volume concludes with an in-depth interview on the blacklisting of terror groups with the former U.S. Director of National Intelligence, James Clapper. This book was originally published as a special issue of the journal *Terrorism and Political Violence*.
