Pharmacist's Manual to assist you in understanding the provisions of the Controlled Substances Act (CSA) and its implementing regulations. This manual will answer questions you may encounter in the practice of pharmacy and provide guidance in complying with the CSA regulations. This edition has been updated to include information on the provisions of the Combat Methamphetamine Epidemic Act of 2005, the Ryan Haight Online Pharmacy Consumer Protection Act of 2008, and the Interim Final Rule entitled Electronic Prescriptions for Controlled Substances. Your role in the proper dispensing of controlled substances is critical to the health of patients and helps protect society against drug abuse and diversion. Your adherence to the CSA, together with its objectives and your compliance, is a powerful resource for protecting the public health, assuring patient safety, and preventing the diversion of controlled substances and...

Laboratory Manual of Dispensing Pharmacy

Haresh Mulani 2014-03 Dispensing Pharmacy involves preparation of dosage forms and traditionally considered as an art. Here an effort is made in which all the necessary information is compiled and kept at one place systematically and in simple language. The experiments are divided for convenience into two parts, namely preparations and prescriptions. Preparations part includes discussion on aromatic waters, syrups, elixirs, linctuses, solutions, suspensions, liniments. Prescriptions part consists of powders, emulsions, effervescent salts.

Appendices included at the end of the book help the students for quick reference. It includes a small dictionary that explains the difficult words. Special emphasis is given for the general principles for each type of preparation/prescription, examples for each type, with diagrams, figures and tables, evaluation tests, appendix as a ready reference. Suggestions and criticism from students and teachers are welcome.
