UNIMARC Manual Alan Hopkinson 2008-12-18

The third edition succeeds the fifth update of second edition. One of the main features has been the adoption of new and revised international standards, notably the International Standard Identifier for Libraries and Related Organizations, the ISBN 13 and the

linking ISSN. New fields have been added for recording the Persistent Record Identifier.

Uniform Conventional Headings for Legal and Religious texts are now catered for with separate fields. A number of fields have been revised: archival materials, manuscripts and documentation produced by the ISSN International Centre.

Using Robots in Hazardous Environments Y

Baudoin 2010-12-20 There have been major recent advances in robotic systems that can replace humans in undertaking hazardous activities in demanding or dangerous environments. Published in association with the CLAWAR (Climbing and Walking Robots and Associated Technologies Association) (www.clawar.org), this important book reviews the development of robotic systems for de-mining and other risky activities such as fire-fighting. Part one provides an overview of the use of robots for humanitarian de-mining work. Part two discusses the development of sensors for mine detection whilst Part three reviews developments in both teleoperated and autonomous robots. Building on the latter, Part four concentrates on robot autonomous navigation. The final part of the book reviews research on multi-agent-systems (MAS) and the multi-robotics-systems (MRS), promising tools

that take into account modular design of mobile robots and the use of several robots in multi-task missions. With its distinguished editors and international team of contributors, *Using robots in hazardous environments: landmine detection, de-mining and other applications* is a standard reference for all those researching the use of robots in hazardous environments as well as government and other agencies wishing to use robots for dangerous tasks such as landmine detection and disposal. Reviews the development of robotic systems for de-mining and other risky activities Discusses the development and applications of sensors for mine detection using different robotic systems Examines research on multi-agent-systems and multi-robotics systems

The Tractor Book DK 2015-05-01 The definitive visual history of the tractor The complete history of farm machinery, from steam and vintage tractors to the latest combine harvesters is showcased in this lavishly illustrated volume. Packed with images and tractor data on more than 200 iconic machines, *The Tractor Book* explores the entire range of tractors and farming machines from around the world, such as Fordson Model F and Massey-Harris GP.

Histories of famous marques, such as John Deere and Massey Ferguson, sit alongside immersive visual tours of celebrated machines. *The Tractor Book* covers how tractors work, their history, major marques and catalogues tractors from every era making this a must-have for anyone fascinated by these extraordinary machines.

Reassessing Lukashenka G. Ioffe 2014-10-05 What are the factors of Lukashenka's longevity at the helm of power? This question is addressed in the context of Belarusian history and identity, not as an outcome of a form of government deceitfully imposed on an allegedly benighted people whom better positioned and informed outsiders seek to enlighten and liberate.

State Corporate Control in Transition Piotr

Kozarzewski 2021-10-18 Since the global financial crisis of 2008-2009, there has been a growing interest among policy makers towards the more active role of the state in the enterprise sector. This book provides valuable insight into the changing role of state-owned enterprises in economic policy, a topic at the cross section of several interrelated, but usually independent research streams first of all transition research, varieties of capitalism literature, public choice approach and institutionalism studies. With the existing literature on state ownership concentrating on the developed economies and on selected emerging economies, this book fills an important gap in focusing on the post-communist transition countries. The Polish experience is looked at in a comparative perspective of selected transition countries, which deserve special attention as they had to cope with a radical change of their economic policies towards the enterprise sector. This book will be valuable reading for academics in economic policy, transition economics, and institutional economics, and policy makers and practitioners in EU bodies and emerging economies.

Farm Machinery & Tractor Facts 1983

The Daily Review 1971-07-19

Bibliography of Agriculture 1972

Diversified Development Indermit S. Gill 2014-02-26 Eurasian economies have to become efficient more productive, job-creating, and stable. But efficiency is not the same as diversification. Governments need to worry less about the composition of exports and production and more about asset portfolios natural resources, built capital, and economic institutions.
