Obsessive-Compulsive Symptoms in Schizophrenia

Lieuwe De Haan 2015-02-26

This book summarizes scientific advances in our understanding of the interrelationship between obsessive-compulsive symptoms and schizophrenia and reflects on the implications for future research directions.

In addition, guidelines are provided on practical assessment, diagnosis and treatment interventions, covering both pharmacotherapy and

psychotherapy. The book acknowledges the need for a perspective that recognizes heterogeneous subgroups and diverse neurobiological explanations; accordingly, multidimensional research-based conceptual frameworks are provided that incorporate recent epidemiological, neurocognitive, neurogenetic and pharmacodynamic findings. Obsessive-Compulsive Symptoms in Schizophrenia has been written by an international team of experts who offer insights gained through their extensive experience. It will be an invaluable guide to this frequent and clinically important comorbidity and will be particularly useful for mental health practitioners.

Mathematical Models for Suspension Bridges

Filippo Gazzola 2015-05-29 This work provides a detailed and up-to-the-minute survey of the various stability problems that can affect suspension bridges. In order to deduce some experimental data and rules on the behavior of suspension bridges, a number of historical events are first described, in the course of which several questions concerning their stability naturally arise. The book then surveys conventional mathematical models for suspension bridges and suggests new nonlinear alternatives, which can potentially supply answers to some stability questions. New explanations are also provided, based on the nonlinear structural behavior of bridges. All the models and responses presented in the book employ the theory of differential

equations and dynamical systems in the broader sense, demonstrating that methods from nonlinear analysis can allow us to determine the thresholds of instability.

Digital Scholarship 2009 includes four bibliographies:

the Scholarly Electronic Publishing Bibliography: 2009 Annual Edition, the Institutional Repository Bibliography, the Electronic Theses and Dissertations Bibliography, and the Google Book Search Bibliography. The longest bibliography, the Scholarly Electronic Publishing Bibliography: 2009 Annual Edition, presents selected English-language articles, books, and other printed and electronic sources that are useful in understanding scholarly electronic publishing efforts on the Internet. Most sources have been published between 1990 and 2009; however, a limited number of key sources published prior to 1990 are also included. Peter Jacso said in ONLINE (vol. 27, no. 3 2003, pp. 73-76): "SEP [Scholarly Electronic Publishing Bibliography] is compiled with utter professionalism. It reminds me of the work of the best artisans who know not only every item that leaves their workshops, but each component used to create them--providing the

ideal quality control. . . . The selection of items is impeccable. I have yet to find journal articles irrelevant to the scope of the bibliography. SEP could be used as a benchmark in evaluating abstracting/indexing databases that proudly claim to have coverage of electronic publishing, but do not come close to SEP."
