**Manual of Human Osteology (Classic Reprint)** A. Francis Dixon 2015-08-05 Excerpt from Manual of Human Osteology This Manual has been written for use in the Department of Practical Anatomy, and it is intended that the student, as he reads it, should have before him the parts of the skeleton described. The order in which the parts are dealt with follows a plan which has been found to work satisfactorily in practice. With regard to the vexed question of terminology it will be noticed that throughout the text the names adopted by the Basle Nomenclature Committee have been printed in black type, but that other names, in frequent use, are also given. These latter are printed in italics, or in the type used for the text. It is hoped that by this means confusion will be avoided, and that the reader will become familiar with the international names, even if, in some cases, he prefers to adhere to the older English terms. All the illustrations have been drawn by Mr. J. T. Murray, so well known as an anatomical artist, to whom I am deeply indebted for the great trouble he has taken to produce accurate and instructive figures. The drawing from an X-ray photograph of the upper end of the femur is from a photograph by Dr. W. S. Haughton, and has already been used to illustrate a paper in the Journal of Anatomy and Physiology; it is reproduced by the kind permission of the Editors of the Journal. **Manual of Modern Scots (Classic Reprint)** William Grant 2015-07-20 Excerpt from Manual of Modern Scots The idea of this work first occurred to one of the authors, Dr Main Dixon, in the course of his experience in lecturing on Scottish Literature to his students in the University of Southern California. He felt the need of a book to which he could refer them for details of Scottish Grammar and Pronunciation, which he could employ, in class, for the recitation of our literary masterpieces, and which the students themselves, after they left the University, could use either for purposes of declamation or teaching. The book is divided into three parts. Part I describes the sounds of Modern Scots with examples of their use written in the alphabet of the International Phonetic Association. Part II contrasts Scots Grammar with Standard English usage and gives copious illustrations from Modern Scottish Literature. Part III consists of a series of extracts from Modern Scots writers and a selection of ballads and songs with phonetic transcriptions. Most of these transcriptions are in Standard Scottish Speech (see Introduction, p. xxi); Extracts XII A, XIII A, XVI A, XVII A, IX B, XiV B, may be described as Standard Scottish with local colour; Extracts VII A, XIV A, XX A, XXII A, XXIV A, are intended to represent the exact speech of definite sub-dialects.
