[Sustainable Birth in Disruptive Times](#) Kim Gutschow 2021-03-22 This contributed volume explores flexible, adaptable, and sustainable solutions to the shockingly high costs of birth

across the globe. It presents innovative and collaborative maternity care practices and policies that are intersectional, human rights-based, transdisciplinary, science-driven, and community-based. Each chapter describes participatory and midwifery-oriented care that helps improve maternal and newborn outcomes within minoritized populations. The featured case studies respond to resource constraints and inequities of access by transforming relations between providers and families or by creating more egalitarian relations among diverse providers such as midwives, obstetricians, and nurses that minimize inefficient hierarchies within maternity care. The authors build on a growing awareness that quality and respectful midwifery care has lower costs and improved outcomes for child bearers, newborns, and providers. Topics include: Sustainable collaborations including transfers of care among midwives and obstetricians in India, The Netherlands, Germany, United Kingdom, and Denmark Midwifery-oriented, femifocal, indigenous, and inclusive models of care that counter obstetric violence and gender stereotypes in Mexico, Chile, Guatemala, Argentina, and India Doula care and midwifery care for women of color, previously incarcerated women, indigenous women, and other minoritized groups in the global north and south Practices and metrics for improving quality of newborn and maternal care as well as maternal and newborn outcomes in disruptive times and disaster settings Sustainable Birth in Disruptive Times is an essential and timely resource for

providers, policy makers, students, and activists with interests in maternity care, midwifery, medical anthropology, maternal health, newborn health, obstetrics, childbirth, medicine, and global health in disruptive times.

Chinese Indentured Labour in the Dutch East Indies, 1880-1942 Gregor Benton

2022-09-19 This book offers a comprehensive account of indentured Chinese labour in the Dutch East Indies between 1880 and 1942, particularly in its twilight years after 1917. The author shows that Chinese indenture started and evolved differently from other forms of bonded labour in Southeast Asia and globally, including its Indian and Javanese variants. This difference is reflected in its lexicon, which was in part special to the Chinese strain. Using fieldwork findings from the tin islands of Bangka and Belitung and the Deli plantations on Sumatra as well as archival materials in Dutch, Chinese, and other languages held in libraries in Java, Nanjing, Taipei, Hong Kong, and Leiden, this book presents cutting-edge research that sets out to contribute to the revising of our historical understanding of indenture.

Dutch Military Thought, 1919-1939 Wim Klinkert 2022-08-01 In the interwar period potential future military conflict seemed particularly devastating for military and civilian society alike, thanks to developments in chemical, air and armoured warfare. This study analyses how a small state, the Netherlands, approached this conundrum and aimed to survive a future war.

Dutch Fortifications Jean-Denis G.G. Lepage 2021-05-26 Covering 2000 years--from Roman times through the Cold War--this book describes the evolution of military architecture in the territory today known as the Netherlands. A vital ally of the Dutch--their numerous rivers and canals--played a central role in the defensive strategy of the country, particularly since the 17th century. A general history covers the innovators, architects and engineers of each

period and their involvement in the development of fortifications. Illustrations detail the technical features of defensive structures, alongside discussion of the weapons and tactics they were designed confront.

Pennsylvania Dutch Cook Book J. George Frederick 2012-05-07 Visitors to the Pennsylvania Dutch country in Pennsylvania are usually delighted with the unique food tradition that survives there among the hills and small,

well-tended farms. Ultimately based on the rich cookery of the peasants and small townspeople of the Rhineland and Switzerland, "Dutch" cookery has expanded into the new foodstuffs and materials that America has to offer, and it is one of the gastronomic treats of the country. Dishes such as apple soup, baked bananas, Dutch liver dumplings, spaetzle and braten, walnut shad, and oyster peppers are enjoyed by almost everyone. One of the difficulties about Dutch cookery, however, is that it always has been a home cooking style within a closely knit community, and it does not go by cookbooks. Until this book appeared, the best that one could do was to try to cadge an occasional recipe from a Dutch acquaintance or a local inn. Mr. George Frederick, one-time president of the Gourmet Society of New York, was in an unmatched position to record the delights of Dutch cookery. Himself a native Pennsylvania Dutchman, with access to countless kitchens and family cooking secrets, he was also a gourmet of international stature. He has gathered together 358 recipes that show the Dutch tradition at its strongest, all dishes with the unique savor that distinguishes them from their occasional counterparts in other cooking systems. His book is so good that it in turn has been taken over by many Pennsylvania resorts as the official cookbook. To list only a few of the mouthwatering recipes that Mr. Frederick gives in clear, accurate recipes that you can prepare: Dutch spiced cucumbers, raspberry sago soup, pretzel soup, squab with dumplings Nazareth, shrimp wiggle, Dutch beer eel, sherry sauerkraut, cheese custard, currant cakes, and many fine dumplings, pancakes, and soups. All types of food are covered.

The Epidemiological Imagination Ashton, John 1994-09-01 Public health is once again in the spotlight after several decades of being eclipsed by high tech, individually-oriented medical science. The reasons for this are not hard to find - the ever escalating costs of medical care, growing disillusionment with the return on investment, particularly for the poorer sections of the community, and a growing recognition of the importance of health promotion and preventative strategies which focus on the environmental and behavioural determinants of health and disease. At the heart of the public health perspective is an emphasis on

understanding whole populations through the application of epidemiological analysis. This reader addresses the need to make available some of the classics of epidemiology to the new generations of students who are now trained in public-health, and to share with them the excitement of the epidemiological method. There is a wealth of experience in our collective public-health past and as we shape the new public health there is a danger of ignoring lessons from the old. By drawing on the choices of leading contemporary epidemiologists in selecting published papers both old and new, this volume aims to make the classics accessible to teachers and students alike.

The Dutch Navy of the Seventeenth and Eighteenth Centuries Jaap R. Bruijn 2017-10-18 This book is a reprint of Jaap R. Bruijn's 1993 book, The Dutch Navy, which offers an English-language overview of the

history of the Dutch Navy in the seventeenth and eighteenth centuries. It is divided into three chronological periods: the 'old', 'new', and 'second-rate' navy. Rather than presenting a history of naval conflict, this volume approaches Dutch naval history from the following four angles: operations, administration, officer duties, and sailor duties. It consists of a series foreword, a new introduction detailing recent developments in naval historiography, the original introduction providing a history of Dutch maritime history from the middle ages to the beginning of the seventeenth century, a conclusion, and a bibliography and index. It explores the astounding amount of naval power belonging to such a sparsely populated nation, plus the rapid rates of success and decline. It confirms that the Dutch navy - with its logic, innovation, and missteps alike - provides an excellent case study of both the development of European bureaucracy and armed forces in the Early Modern period.

Manual of Cultivated Conifers P. den Ouden 1982-10-31 As an introduction to the present book I would like to explain how it was, that I, a commercial nurseryman, became so keenly interested in Conifers and their nomenclature. In August 1924 the Dutch Dendrological Society was founded and at the same time a Committee for Nomenclature of woody plants was set up and I served on this committee as one of the members. Our first activity was to bring the catalogues of the various leading nurserymen in the Netherlands into line with the International Rules of Botanical Nomenclature and also to check their nursery stock. Formerly these catalogues had shown a rather confused nomenclature, nurserymen having usually made use of a variety of inconsistent books as guides in compiling their catalogues. In the course of the work a close co-operation between scientific and practical workers developed. Although I had also fully contributed to the correct naming of hardy shrubs and perennials, I was most interested in Conifers. I had tried out several species, had grown a wide choice of garden forms and selected types of particular merit for propagation. My special love for Conifers led to the publication of my Name-list of Conifers (1937), which was adopted as a standard for varietal names at the International Horticultural

Congress in Berlin (1938). Later I prepared my book 'Coniferen, Ephedra en Ginkgo' in the Dutch language (1949); compiling the Conifers cultivated or known to be grown in the Netherlands and Belgium at that time.

Dutch Clarke -- The War Years Brian Ratty 2013-05-22 In 1942, as American blood is about to be spilled in far-off Guadalcanal, a young man boards a train and blindly heads towards his destiny: Boot camp with the United States Marine Corps. These tragic times of World War II were the defining years for millions of cowboys and plowboys. This book is a compelling chronicle about these years and one not-so-ordinary young man. 'The War Years' is a heartwarming saga about Dutch Clarke who, over the objections of his prominent family, answers his country's call. Just as Dutch is about to complete boot camp, family influence steps in and propels him through the ranks and into the Office of War Information. Here he puts down his rifle and takes up photography. Soon Dutch learns the power of the lens and the courage to use it. This is a uniquely different war story about men who fought their way across the Pacific, not with guns but with cameras. This tapestry covers more than just guns and bullets; it is also about the human threads of prejudice, friendship and the ultimate sacrifice. After surviving a Japanese POW camp and a daring escape, Dutch is given the opportunity to be one of the first American photographers to set foot on homeland Japan...here he turns his assignment from reconnaissance to revenge. This story is as fresh as today's headlines and as true as yesterday's sins. Winner: Eric Hoffer Literary Award Book of the Year Finalist - ForeWord Magazine

The War Years is an engaging and insightful look into Dutch Clarke's military service among tinsel town's celebrities, his front line action as a combat photographer, and his subsequent refusal to be cowed as a Japanese prisoner. It's an action filled, satisfying read for any reader, especially if you like a good military novel. Gary Adams, author of *Felicity - Hard Times - Happy Days*. The novelist misses nothing as his narrative snaps pictures of racism, injury, death, heroism, revenge, and redemption in nonstop action. Ratty effectively weaves a combination of current drama and flashbacks as Dutch narrates his saga. A skilled

storyteller, Ratty has moments of elegant prose.

Castle Garden and Battery Park Barry Moreno 2007 Few buildings in Manhattan have had a richer and more varied life than 200-year-old Castle Clinton, the magnificent red sandstone structure that lies in historic Battery Park. Although originally built as a fortress just before the outbreak of the War of 1812, its actual fame rests on the years when it was known worldwide as Castle Garden, a name that underlined its intimate connection with the surrounding park. Under that name, it served successively as Manhattan's preeminent public events hall and theater (1824-1855), then as America's first great landing place for millions of immigrants (1855-1890), and finally as the oldest and grandest municipal aquarium in the United States (1896-1941). Castle Garden and Battery Park invites readers to step back in time and dip into this legendary monument's dramatic story and learn how it has managed to survive into the 21st century.

Lettering Young Readers in the Dutch Enlightenment Feike Dietz 2021-05-22 'This book presents a rigorous, hugely informative analysis of the early history of Dutch children's literature, pedagogical developments and emerging family formations. Thoroughly researched, Dietz's study will be essential for

historians of eighteenth-century childhood, education and children's books, both in the Dutch context and more widely.' — Matthew Grenby, Newcastle University, UK. 'A rich, informative, well-documented and effectively illustrated discussion of the ways Dutch eighteenth-century educators tried to transform youth into responsible readers. It does so in a wide international context and masterfully connects this process to the radical politicization and de-politicization of Dutch society in the revolutionary period.' —Wijnand W. Mijnhardt, formerly of Utrecht University, the Netherlands, and the University of California at Los Angeles, USA. This book explores how children's literature and literacy could at once regulate and empower young people in the eighteenth-century Dutch Republic. Rather than presenting the history of childhood as a linear story of increasing agency, it suggests that we view it as a continuous struggle with the impossibility of full agency for young people. This volume demonstrates how this struggle informed the production of books in a historical context in which the development of independent youths was high on the political agenda. In close interaction with international children's literature markets, Dutch authors developed new strategies to make the members of young generations into capable readers and writers, equipped to organize their own minds and bodies properly, and to support a supposedly declining fatherland.

A Manual of Bibliography Walter Rogers 2014-11-03 From the beginning of the first chapter. Without attempting to trace the origin of printing among the Chinese, Persians, Greeks, or Romans, we may assume it as certain that typography, or the art of printing with movable types, had as a forerunner xylography, or engraving on wood; and it was the successive application of this art that led to the discovery of printing. The earliest products of wood-engraving were playing cards and single leaf woodcuts, with or without text, known as Helgen, or Saint Pictures. At first, probably, these latter bore an image alone, but as the images closely resembled one another, it became necessary to add the name of the Saint depicted. To the name was soon added a word or a line, then, two lines, and, finally, an entire page of

letters was engraved. Several of these pages, printed on one side only of a piece of paper, were placed together in continuous order in the form of a book, thus forming what is now known as a xylographic or block-book, - one of the greatest of bibliographical rarities. Heineken, Sothby, and others have described the various block-books, indicating the different editions of each and the libraries in which they are to be found. The most notable are the following: *Historia Veteris et Novi Testamenti*, or *Biblia Pauperum*; in Latin and German. Folio, about 40 leaves. *Historia Sancti Joannis Evangelistæ ejusque Visiones Apocalypticæ*. Folio, 48 or 50 leaves. *Historia seu Providentia Virginis Mariæ ex Cantico Canticum*. Small folio, 16 leaves. In these three works there are only a few lines of words scattered here and there among the engraven figures, whilst in the following, the words-or, better still, the text-are engraven on separate blocks. They are:- *Der Entkrist* [*Historia Antichristi*], with an appendix of the signs which will precede the final judgment. Small folio, 39 leaves. *Ars Memorandi Notabilis per Figuris Evangelistarum*. 15 leaves of figures and as many of text, folio. *Ars Moriendi*, or *De Tentationibus Morientium*, or *Tentationes Dæmonis*, in Latin, German, or Dutch. Folio and 4to, 24 leaves partly figures and partly text. *Speculum Humanæ Salvationis*, or *Spiegelhousen Behoudnisse*. Small folio, 5 leaves of preface and 58 leaves of vignettes, with Latin and Flemish sentences at the foot. *Die Kunst Cyromantia* of Hartlieb, partly printed on both sides. There remained but one step to be made, and movable types and typography were discovered. Who made this step?

The Thirty Years' War Geoffrey Parker
2006-03-20 The first edition of *The Thirty Years' War* offered an unrivalled survey of a central period in European history. Drawing on a huge body of source material from different languages and countries throughout Europe, it provided a clear and comprehensive narrative and analytical account of the subject. It has established itself as the classic text with reviewers, students and the general reader. This second edition has been thoroughly revised to include the very latest research. The updated bibliographical information provides an invaluable resource, synthesising the major work

in the field, in all languages, up to 1996. Written with great clarity and liveliness, the book brings alive the period in all its aspects. It covers the horrors of the war and the contorted politics of the period. It deals with all the major figures, including Wallerstein and Richelieu, Gustavus Adolphus and Tilly, the Winter King and the Habsburg emperors. For range and depth of coverage there is no other work like it. It has become the definitive book on the subject.

K9 Line-up Training Ruud Haak and Resi Gerritsen 2023-02-01 Enhance your K9's detection capabilities and unlock the power of its nose with scent and odor line-up training
Learn how to: - Master the basics of detector dog training - Train dogs in scent identification line-ups and odor recognition tests - Troubleshoot common problems in scent identification and detection work
The use of detector dogs to find or identify scents or odors has a long history, and has risen dramatically in recent decades in all different areas of detection, including drugs, explosives, missing persons, and more. But even with this increase, there remains a lack of information about the different ways to train dogs in scent identification and detection, and even less about the many ways that training can go wrong. K9 training experts Resi Gerritsen, Ruud Haak, and Simon Prins wrote this book so all trainers have access to the knowledge they need to train capable detector dogs. This book introduces both professional and amateur dog handlers to the basics of scent and odor line-up training and their applications in K9 scent identification and detection work. From training schedules to the fascinating history of nose work in policing, this book is designed to be a practical, accessible, and informative resource for K9 officers, professional or volunteer search-and-rescue workers, competitive dog trainers, and enthusiastic hobbyists alike.
