Twenty Small Sailboats to Take You Anywhere John Vigor 1999-08

John Vigor turns the spotlight on twenty seaworthy sailboats that are at home on the ocean in all weather. These are old fiberglass boats, mostly of traditional design and strong construction. All are small, from 20 feet to 32 feet overall, but all have crossed oceans, and all are cheap.

Choosing the right boat to take you across an ocean or around the world can be confusing and exasperating, particularly with a tight budget.

Vigor sets out to remedy that in this book. He compares the designs and handling characteristics of 20 different boats whose secondhand market prices start at about \$3,000. Interviews with experienced owners

(featuring valuable tips about handling each boat in heavy weather) are interspersed with line drawings of hulls, sail plans, and accommodations. Vigor has unearthed the known weaknesses of each boat and explains how to deal with them. He rates their comparative seaworthiness, their speed, and the number of people they can carry in comfort. If you have ever dreamed the dream this book can help you turn it into reality.

Manual de supervivencia del Perito Judicial en Propiedad Intelectual e

Industrial José Manuel Ferro Veiga 2020-01-16 La numerosa clientela de los productos falsificados se compone sobre todo de personas con poco poder adquisitivo y más o menos conscientes de comprar artículos de imitación, pero poco avisadas de que algunos pueden resultar peligrosos para la salud, como los perfumes y los cosméticos. La mayoría también desconoce que, por dónde y cómo se venden esos artículos, prácticamente eliminan derechos básicos de los consumidores, como las garantías y la posibilidad de reclamación. Con las calles de las principales ciudades abarrotadas en busca de regalos, las Navidades son, junto con el verano, una de las épocas en que se dispara la venta de productos falsificados, artículos en general a precios "populares" que imitan o plagian los de marcas prestigiosas. Y, consecuentemente,

aumenta el número de operaciones policiales, incautaciones y detenciones en el top manta, mercadillos, bazares, tiendas con pocos escrúpulos y almacenes para la distribución y venta ilegal a pie de calle o por Internet. Como muestra de esta realidad, el pasado verano fue pródigo en la "caza" del producto falso. A primeros de julio de 2018, la Guardia Civil dismanteló en Valencia dos fábricas de pilas falsas con más de un millón de unidades en stock y el doble de etiquetas y embalajes con los logotipos de marcas del sector. Fabricadas por empleados en condiciones penosas y sin controles de calidad, esas pilas podrían resultar peligrosas para los aparatos y las personas que las utilizaran. Durante los Sanfermines, la Policía Nacional detuvo en Pamplona a una banda especializada en delitos contra la propiedad industrial e intelectual con tres toneladas de calzado y ropa de vestir y deportiva, en apariencia, de marcas de primera fila valoradas en dos millones de euros. Pero no todo se limita a productos de uso cotidiano. A finales de julio, se dismanteló una organización que vendía vinos de Ribera de Duero de unos 20 euros a precios de hasta 1.900 euros la botella. Los hacían pasar por caldos de marcas tan exclusivas como Flor de Pingus, Vega Sicilia Único y Vega Sicilia Quinta Valbuena y los vendían en Internet, en portales de subastas e incluso en restaurantes de categoría. Muchas de estas operaciones parten de denuncias de marcas afectadas por la falsificación. Eso ocurrió, por ejemplo, a finales de agosto de 2018 con el decomiso en cinco tiendas de un centro comercial de Benidorm (Alicante) de medio millar de bolsos, carteras, gorras, colgantes, pendientes y relojes de marcas conocidas. Uno de los denunciantes fue la Federación de la Industria Relojera Suiza. La marca de ropa y complementos Michael Kors puso una denuncia similar que trajo consigo a primeros de septiembre una redada en seis locales de La Junquera (Girona) y que se saldó con la retirada de unas 5.000 piezas de ropa, calzado y bolsos. También a finales de verano, se dismanteló a partir de una denuncia un centro de distribución en Palma donde se incautaron 8.300 artículos presuntamente de marcas de lujo como Adidas, Louis Vuitton, Gucci, Hugo Boss y Armani, cuya venta callejera habría hecho una caja de más de dos millones de euros. Estas operaciones policiales se repiten en otras

épocas del año y no son más que el reflejo de una realidad: mientras el marketing siga creando en la sociedad el ansia de poseer, usar y lucir artículos de marcas famosas, y mientras sus precios estén fuera del alcance de buena parte de los consumidores, habrá quien se la juegue con la ley fabricando, transportando y vendiendo falsificaciones, y no faltará quien, bien por desconocimiento o por "necesidad", las compre. Y no se atisba el menor indicio de que nada de eso vaya a cambiar. Al contrario, el mercado de lo falso sigue creciendo y alcanzando cifras asombrosas. En junio de 2018 la Oficina de Propiedad Intelectual Comunitaria (EUIPO) presentó los resultados de una investigación realizada en los últimos cinco años en toda la Unión Europea (UE) centrada en los 13 sectores más castigados por la piratería: artículos deportivos, baterías y pilas, bebidas espirituosas y vinos, bolsos y equipaje, cosméticos, perfumes y artículos de higiene personal, joyería y relojería, juguetes y juegos, música, neumáticos, pesticidas, productos farmacéuticos, ropa y teléfonos móviles. El informe de la EUIPO revela que, en esos sectores, las falsificaciones restan al mercado legal un 7,5 % de las ventas y que conllevan la destrucción de 434.000 puestos de trabajo y unas pérdidas en la UE de 60.000 millones de euros al año, por el no abono de impuestos, cotizaciones y otros ingresos. En todo el mundo, según la Interpol, estas pérdidas anuales ascenderían a más de 220.000 millones de euros. En España, estos 13 sectores pierden anualmente el 9,3 % de sus ventas: 6.200 millones de euros. En el caso de la perfumería y cosmética, ese porcentaje se eleva al 16,2 % (el doble de la media europea), según la patronal Stanpa: 933 millones de euros de los 5.828 que pierde anualmente el sector en la UE. La piratería de artículos deportivos en nuestro también duplica la media de la zona del euro, donde esta industria emplea a 43.000 trabajadores en 4.271 empresas y pierde 7.500 millones al año solo en artículos como balones, esquís y complementos. Visto el perjuicio económico y social que provocan los productos falsificados, no es de extrañar la gravedad de las acusaciones que suelen recaer sobre las personas detenidas en operaciones contra la piratería: pertenencia a organización criminal, delitos contra la salud pública, contra la propiedad industrial, estafa,

blanqueo de capitales, evasión fiscal... Pero ¿y los consumidores que adquieren productos falsificados? ¿Cometen algún delito? El artículo 298.1 del Código Penal dice que será castigado con pena de prisión de seis meses a dos años quien, con ánimo de lucro y sabiendo que comete un delito "contra el patrimonio o el orden socioeconómico", reciba, adquiera u oculte productos de origen ilícito. Pero... ¿quién va a denunciar a un joven que compra por 25 euros en una web pirata o en las redes sociales una camiseta de su equipo favorito que en la tienda oficial cuesta cinco o seis veces más? ¿Quién denuncia a un ama de casa que compra en un mercadillo por 30 euros un bolso que parece de Chanel? ¿Y a una chica que adquiere en un bazar "unas gafas de sol Ray-Ban" por 42 euros? ¿Cómo demostrar que eran conscientes de comprar cosas pirateadas y de ser cómplices de ese mercado ilegal? Habrá consumidores que compren productos falsos a sabiendas. Pero muchos otros piensan que han encontrado un chollo que estaba en promoción, y algunos son víctimas de una estafa pura y dura. De ahí que apenas se tengan noticias -en EKA/ACUV no conocemos ninguna- sobre denuncias, juicios y menos aún condenas a consumidores por comprar productos falsos. Cuando se hace una redada en el top manta o en un almacén con productos falsos, quienes tratan de escapar son los vendedores; a los compradores no los detiene la Policía ni los acusa de nada. Esa es la realidad, que no obsta para que, consciente o inconscientemente, los compradores de productos falsos contribuyan a sostener ese mercado y sus consecuencias.

H.264 and MPEG-4 Video Compression Iain E. Richardson

2004-02-06 Following on from the successful MPEG-2 standard, MPEG-4 Visual is enabling a new wave of multimedia applications from Internet video streaming to mobile video conferencing. The new H.264 'Advanced Video Coding' standard promises impressive compression performance and is gaining support from developers and manufacturers. The first book to cover H.264 in technical detail, this unique resource takes an application-based approach to the two standards and the coding concepts that underpin them. Presents a practical, step-by-step, guide to the MPEG-4 Visual and H.264 standards for video compression.

Introduces the basic concepts of digital video and covers essential background material required for an understanding of both standards. Provides side-by-side performance comparisons of MPEG-4 Visual and H.264 and advice on how to approach and interpret them to ensure conformance. Examines the way that the standards have been shaped and developed, discussing the composition and procedures of the VCEG and MPEG standardisation groups. Focussing on compression tools and profiles for practical multimedia applications, this book 'decodes' the standards, enabling developers, researchers, engineers and students to rapidly get to grips with both H.264 and MPEG-4 Visual. Dr Iain Richardson leads the Image Communication Technology research group at the Robert Gordon University in Scotland and is the author of over 40 research papers and two previous books on video compression technology.

Achtung-Panzer! Heinz Guderian 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Baseball Haiku: The Best Haiku Ever Written about the Game Nanae Tamura 2007-04-17 Presenting more than two hundred of the greatest haiku ever written about the game. There are moments in every baseball game that make fans catch their breath: the pause while a pitcher looks in for the sign, the moment a cocksure rookie gets picked off first, or the instant a batter lashes a game-winning homer into the

night sky, just before the sell-out crowd explodes onto its feet. Haiku captures these moments like no other poetic form, and Baseball Haiku captures the sights, the sounds, the smells, and the emotions of the game like no previous collection. Some of the most important haiku poets of both America and Japan are featured in this anthology; including Jack Kerouac, a longtime baseball fan who pioneered English-language haiku; Alan Pizzarelli, one of the top American haiku and senryu poets of the last thirty years; and Masaoka Shiki, one of the four great pillars of Japanese haiku—a towering figure—who was instrumental in popularizing baseball in Japan during the 1890s. With over two hundred poems spanning more than a century of ball playing, Baseball Haiku reveals the intricate ways in which this enduring and indelible sport—which is played on a field, under an open sky—has always been linked to nature and the seasons. And just as a haiku happens in a timeless now, so too does Baseball Haiku evoke those unforgettable images that capture the actions and atmospheres of the national pastime: each poem resonates like the lonely sound of cleats echoing in the tunnel as a grizzled veteran leaves his final game. The largest collection of haiku and senryu on baseball ever assembled, Baseball Haiku is an extraordinary treasure for any true baseball fan.

Vanished Splendors: A Memoir Balthus 2002-12-03 The painter Balthus, whose tenacity and cultivated taste for secrecy have enveloped him in an aura of forbidding mystery, wrote this memoir at the end of his long life. A man who for decades opted to "give expression to the world" rather than to "express" himself speaks for the first and only time about his life, family, work, his theory of art and how it intersects with history, literature, and spirituality. Balthus was born Balthasar Klossowski in 1908 to Polish art historian Erich Klossowski and his wife, the painter Elisabeth Dorothea Spiro. The family lived in Germany, France, and Switzerland. In this memoir Balthus describes his childhood with his mother and her lover -- the poet Rainer Maria Rilke -- who became Balthus's own spiritual mentor. He evokes la vie de boheme in Paris during the 1920s, his friendships with Picasso, Derain, Artaud, Giacometti, Saint-Exupéry, René Char, Pierre Jean Jouve, and Albert

Camus. He discusses his paintings, offers glimpses into his marriage, and expresses his passion for Chinese art and the Swiss chalets and Italian villas that he helped to restore. He recalls touching moments with his beloved daughter Harumi and the inspiration he drew from his cats. Also, in a kind of final lesson, Balthus shares his thoughts about painting and creation, denounces contemporary art as being illusory and deceitful, and talks candidly about his Catholic faith and how it inspired his work. "We are most charmed by the memoir's ease of expression, as if Balthus were confiding in us, as individuals," writes Joyce Carol Oates in her introduction to *Vanished Splendors*. "We are brought into a startling intimacy with genius."

The Art of Breaking Up hitRECORD 2020-05-05 Joseph Gordon-Levitt's creative collaborative community HITRECORD looks at love from both sides in this ingenious flippable book. So, you just got dumped, huh? Or did you just dump someone? Doesn't matter who ended it. Either way, you're sleeping alone tonight. But don't worry, you're not really alone. HITRECORD's global community of over 750,000 active artists is here to

help with *The Art of Breaking Up*, a new book designed to get you through this trying time. That's over 750,000 people who know the soul-crushing pain of a broken heart. But instead of wallowing forever in vats of unproductive (but delicious) cookie dough, they've channeled all that misery into an insightful, funny, and smart compendium of musings, photography, drawings, collages, puzzles, recipes, games, and more—designed to explore (and distract from) the mind-numbing agony of a romantic breakup. You'll laugh, you'll smile, and you'll probably cry. Everyone knows there are two sides to every break-up, so this book features a double-sided, flippable structure. One side eases the tortured consciences of the HEARTBREAKERS. Flip the book, and the other side considers the plight of the BROKEN-HEARTED. Both sides are organized chronologically with chapters that correspond to the emotional trajectory of both the HEARTBREAKER and BROKEN-HEARTED. Chapters include: Early Warning Signs, Exit Strategy, The Break Up, Acceptance, Depression, Bargaining, Anger, and Denial. Where the two sections meet in the middle there is a compelling, heart-wrenching moment where the HEARTBREAKER and BROKEN-HEARTED connect again, but we're not giving that away. Inside this book you'll find plenty of art, stories, comics, and other amusements, such as a Post-Break-Up Relationship Survey, Denial Yoga, Candy Hearts for Assholes, Breakup Greeting Cards, Hex Your Ex Voodoo Doll, The Free Bird Word Search Game, and a playlist or two, including "Right Back at Ya," a collection of songs to stoke the burning rage in your heart. Everything you'll find in this book was made collaboratively by people from around the world on HITRECORD—an online creative platform for collaborative art and media projects founded and directed by Joseph Gordon-Levitt. With its universal, all-inclusive approach to the subject, *The Art of Breaking Up* is an acute observation of love and heartbreak in modern times, and maybe—just maybe—a salve for anyone with a broken heart.

[Every Deep-Drawn Breath](#) Wes Ely 2021-09-28 A world-renowned critical-care doctor offers hope for patients, their families, and the future of medicine in this timely, urgent, and compassionate work about the devastating and little-known physical and emotional effects of ICU stays.

As COVID-19 survivors are discharged from hospitals, grateful to be alive, most don't realise that the hardest part of their battle may be about to begin. Many will return home and struggle with long-term physical, mental, and emotional problems either caused or exacerbated by the life-saving treatment they received in intensive care. They'll join the ranks of critical-care survivors whose lives are completely upturned by a hospital stay. More than half of the patients admitted to ICUs will struggle with post-intensive care syndrome, which can include Alzheimer's-like cognitive deficits, PTSD, muscle and nerve damage, and depression. Their personal and professional lives can suffer irreparably. Worst of all, no one seems to understand that they have an illness at all. Not even their doctors. Dr Ely is now a leader in the field of ICU survivorship — advocating for compassionate care in the technology-driven enclave of the modern ICU — especially relevant during the coronavirus pandemic. In *Every Deep-Drawn Breath*, Dr Ely sounds a warning for the millions of people who will be admitted to ICUs in coming years and a wake-up call for healthcare professionals — himself included — to turn their gaze from the latest life-saving machines to really see, as he says, 'the person in the patient'.
