Jack and Rochelle Jack Sutin 2015-07-14 The memoir of a man and

woman who escaped into the forest, joined the Jewish partisans—and fell in love—as Hitler laid waste to their Polish hometowns. Jack and Rochelle first met at a youth dance in Poland before the war. They shared one dance, and Jack stepped on Rochelle's shoes. She was unimpressed. When the Nazis invaded eastern Poland in 1941, both Jack (in the town of Mir) and Rochelle (in the town of Stolpce) witnessed the horrors of ghettoization, forced labor, and mass killings that decimated their families. Jack and Rochelle managed, in their separate ways, to escape into the forest. They reunited, against all odds, in the winter of 1942–43 and became Jewish partisans who fought back against the Nazis. The couple's careful courtship soon blossomed into an enduring love that sustained them through the raging hatred of the Holocaust and the destruction of the lives they had known. Jack and Rochelle's story, told in their own voices through extensive interviews with their son, Lawrence, has been in print for twenty years and is celebrated as a classic of Holocaust memoir literature. This is the first electronic edition. "A story of heroism and of touching romance in a time of fear and danger." —USA Today

Why Do German Companies Invest in Apprenticeships? Schaack
Klaus 2022-01-19 The book offers historical and political explanations, a
criticism of neoclassical and "common sense" models in comparative
vocational education research, and an inspection of structures,
institutions and "boosters" of the "dual system's" performance. The

question, why German companies and private sector institutions "participate" not only in training but also in training design, targets a very clear behavioural difference between German entrepreneurs and the entrepreneurs of many other countries. It is largely a question concerning the social forces which have a decisive say in design, supervision and implementation of training. Klaus Schaack, economist, born 1947, has been working in the field of technical and vocational education and training (TVET) and international TVET cooperation for several German and foreign organizations since 1980. For ten years he has been TVET adviser to the Laotian Ministry of Education, to the South Korean Ministry of Labour and several Korean training agencies including the HRD Service of Korea, the Korea Foundation of Polytechnic Colleges (KOPO) and the Korea Chamber of Commerce and Industry (KCCI).
