National Institutes of Health Linda T. Kohn 2011-01 This is a print on demand edition of a hard to find publication. The Amer. Recovery and Reinvestment Act of 2009 included \$10.4 billion in funding for NIH. Of the NIH Recovery Act funding, \$8.2 billion was to be used to support additional scientific research and \$400 million for comparative effectiveness research, including extramural research at universities and research institutions. This report examined how NIH awarded Recovery Act funds for scientific research and the information that NIH made available about the award of these funds. It describes the: (1) process and criteria NIH used to award extramural grants using Recovery Act funding; and (2) characteristics of Recovery Act extramural grants and the information made publicly available about these grants. A Guide to the Preparation of Research Grant Applications for Health Related Projects Washington (State). Department of Health 1963 *A Government Guide to Grants* Nathan E. Legaspi 2010 This book provides an overview of the six grant types, provides criteria for defining a block grant and uses that criteria to provide a list of current block grants, examines competing perspectives concerning the use of block grants versus other grant mechanisms to achieve national goals, provides a brief historical overview of the role of block grants in American federalism, and examines recent changes to existing block grants and proposals to create new ones. The authors also describe key sources of information on government and private funding, and outlines eligibility for federal grants. Moreover, how to develop and write a grant proposal is also discussed in this book. In preparation for writing a proposal, the report first examines preliminary information gathering and preparation, developing ideas for the

proposal, gathering community support, identifying funding resources, and seeking preliminary review of the proposal and support of relevant administrative officials. The second section covers the actual writing of the proposal, from outlining the project goals, to finally developing the proposal budget. This book consists of public documents which have been located, gathered, combined, reformatted, and enhanced with a subject index, selectively edited and bound to provide easy access.

Guide to Government Grants Writing

Harriet Grayson 2005-12 The government has literally billions of dollars to give away. While many people express interest in applying for government grants they falsely think the process is too complicated. The Guide to Government Grants Writing simplifies this process. In

addition, information is provided on bidding for government contracts, which are available to organizations of all types as well as individuals. The Guide to Government Grants Writing is a concise, simple but elegant tool designed to assist any individual or organization, including non-profit and for-profit businesses on researching and writing government grant applications. The Guide illustrates and provides specific step-by-step examples on how to complete the seemingly dense application as well as forms required of all government grant applications. The Guide is a basic reference tool for accessing grants information on all government levels-federal, state and local. Specific state-by-state details are provided on grants available in all 50 states. Don't let the forms and the length of the application announcement prevent you or your organization from applying for government grants and or seeking government contracts. The Guide to Government Grants Writing makes the entire

process manageable. Don't let your organization miss out on the opportunities.
