Rick Perry and His Eggheads Sasha Issenberg 2011-08-23 A fascinating, never-before-reported look into how Rick Perry, in his 2006 reelection campaign in Texas, had academics conduct real-time experiments to study what makes people vote--revealing a new side of a major politician and a game-changing trend in American politics. Despite his folksy personality and disdain for East Coast "elitists," Texas governor Rick Perry helped spark a revolution in campaign politics. For his 2006 reelection effort, his top strategist, the imposing and profane Dave Carney, convinced Perry to invite a quartet of academics into the war room to gauge the effectiveness of various campaign tools. In the heat of the campaign, they ran live randomized experiments testing candidate appearances, yard signs, television ads, etc. No candidate had done this before, and no one has done it since. Now, in this chapter-sized pull-out from his upcoming book, *The Victory Lab*, Sasha Issenberg brings us this ground-breaking story. With unprecedented access to Perry's campaign team, including Carney, Issenberg shows how the four academics, known in Perry's world as "the eggheads," made great strides in understanding what works and what doesn't in elections. Written with energy, insight, and first-class reporting, *Rick Perry and His Eggheads*

shows how social science, political machinations, and big personalities rebelling against conventional wisdom are reshaping the way we elect our leaders.

Healing Our Differences Collins O. Airhihenbuwa 2007 This book locates identity at the center of discourses on global health with particular reference to African experiences. It challenges scholars and practitioners to understand that global health must be anchored in celebrating differences in identity. A central theme in the book is to affirm celebration of different identities as central to public health landscape. Such an approach promotes multiple truths rather than a universal truth that ignores differences.

Warm Beer, Lousy Food John S. Columbia 2009-12 The line began forming after eight o'clock. Sal, short and heavy-set, kept everyone busy. Neat, in a white shirt and sports jacket, with his grey fedora cocked to the side, his crooked grin made you smile. Without warning the heavy door would swing open and the waiters would come outside to join him. They were dressed in pajamas or prison garb, with hats and horns, and were there to warm up the crowd. Some in line expected this, others were shocked. The pink polka dot building should have been a warning. Complete strangers in line became chummy, exchanging stories they had heard; toilet seat covers to serve drinks on, microphones in the ladies room, toilet paper for napkins. Most had brought their friends there to be roasted. The line of people varied in age. They all dressed casually because they'd heard you could get a pie in the face or a squirt in the eye. The club's routines were blue in color, but harmless. If you were lucky you might see a "Balls for the Queen" or a "Singing beer." The price was always right for a good time and Warm Beer and Lousy Food was the place to be.

To Live Is Christ Beth Moore 2008-03 In *To Live Is Christ*, best-selling author Beth Moore travels on a spiritual odyssey through the life of one of Christianity's most fervent journeymen, the apostle Paul, tracing his story from childhood to martyrdom. Proclaiming his faith as a benchmark in New Testament Scripture, Beth writes, "I have accepted many of Paul's words as a personal challenge. 'I want to know Christ' has become my plea. 'To live is Christ and to die is gain' has become my hope. And to borrow his words once more, 'Not that I have already obtained all this . . . but I press on.'" Paul's undying passion for Christ continues to inspire and challenge those with a deep spiritual hunger for the things of God. Readers will be greatly refreshed by the obvious mercy of God that causes those who have failed him to repent and serve him wholeheartedly and effectively.

This Close to Happy Daphne Merkin 2017-02-07 A New York Times Book Review Favorite Read of 2016 "Despair is always described as dull," writes Daphne Merkin, "when the truth is that despair has a light all its own, a lunar glow, the color of mottled silver." *This Close to Happy*—Merkin's rare, vividly personal account of what it feels like to suffer from clinical depression—captures this strange light. Daphne Merkin has been hospitalized three times: first, in grade school, for childhood depression; years later, after her daughter was born, for severe postpartum depression; and later still, after her mother died, for obsessive suicidal thinking. Recounting this series of hospitalizations, as well as her visits to myriad therapists and psychopharmacologists, Merkin fearlessly offers what the child psychiatrist Harold Koplewicz calls "the inside view of navigating a chronic psychiatric illness to a realistic outcome." The arc of Merkin's affliction is lifelong, beginning in a childhood largely bereft of love and stretching into the present, where Merkin lives a high-functioning life and her depression is manageable, if not "cured." "The opposite of depression," she writes with characteristic insight, "is not a state of unimaginable happiness . . . but a state of relative all-right-ness." In this dark yet vital memoir, Merkin describes not only the harrowing sorrow that she has known all her life, but also her early, redemptive love of reading and gradual emergence as a writer. Written with an acute understanding of the ways in which her condition has evolved as well as affected those around her, *This Close to Happy* is an utterly candid coming-to-terms with an illness that many share but few talk about, one that remains shrouded in stigma. In the words of the distinguished psychologist Carol Gilligan, "It brings a stunningly

perceptive voice into the forefront of the conversation about depression, one that is both reassuring and revelatory."

Exhibition Design David Dernie 2006 The way in which the contemporary exhibition is designed is fast changing - previously aloof cultural institutions are making use of technologies and techniques more commonly associated with film and retail. *Exhibition Design* features a wide variety of examples from around the world, from major trade and commerce fairs, to well-known fine art institutions, to small-scale artist-designed displays. An introduction gives a historical perspective on the development of exhibitions and museums. The first part of the book covers the conceptual themes of narrative space, performative space and simulated experience and the second the practical concerns of display, lighting, colour, sound and graphics. Throughout are photographs, drawings and diagrams of exhibitions, including the work of such internationally renowned architects and designers as Ralph Appelbaum Associates, Atelier Bruckner, Casson Mann, Frank Gehry, Zaha Hadid, Imagination, METStudio and Jean Nouvel.
