Problems in Contract Law

Charles L. Knapp 2023-01-31

Problems in Contract Law:

Cases and Materials, by

Charles L. Knapp, Nathan M.

Crystal, Harry G. Prince,

Danielle K. Hart, and Joshua M.

Silverstein, includes cases with

notes and explanatory text,

additional commentary, essay,

and short-answer problems,

and multiple-choice review

questions for each chapter. The

cases selected are a balance of

traditional and contemporary

that reflect the development

and complexity of contract law.

Explanatory notes and text

place the classic and newer

decisions in their larger legal

context. Questions and

problems provide opportunities

to practice core legal skills and

encourage students to explore

the relationship between

theory and practice. This

successful book is well known

for approaching contract law

and theory from multiple

perspectives and using a

variety of contractual settings.

Adaptable for instructors with

different pedagogical

philosophies, Problems in Contract Law can easily be used in teaching by traditional case analysis, through problem-based instruction, or using theoretical inquiry. The purchase of this ebook edition does not entitle you to receive access to the Connected eBook with Study Center on CasebookConnect. You will need to purchase a new print book to get access to the full experience, including: lifetime access to the online ebook with highlight, annotation, and search capabilities; practice questions from your favorite study aids; an outline tool and other helpful resources. New to the 10th Edition: Five new principal cases that reflect advances in or improved statements of contract law. One restored principal case (Oppenheimer & Co. v. Oppenheim, Appel, Dixon & Co.) that provides valuable perspectives on a fundamental area of contract law. Twelve new problems, including several shorter problems, to provide more review options for teachers and students and

to add contemporary fact patterns. Eight new tables and flow charts to assist students with the conceptual structure of complicated legal subjects. Editing of note and text material to reduce length without affecting coverage and to capture new legal developments. Reorganization of text and comment material to focus comments primarily on historical developments, allowing professors greater flexibility in assigning or deleting comments. Student accessibility to deleted cases from prior editions through Casebook Connect, allowing professors the further flexibility of continuing to easily assign cases for which they have a particular preference. Professors and students will benefit from: The authors' emphasis on making the material accessible for both students taking and professors teaching the course - rejecting a hide-the-ball approach. The continued appeal to professors with various teaching methodologies: traditional, problem-oriented, theoretical,

and practical. The comprehensive nature of the contents allows professors the flexibility to teach their students the basics or conduct a more in-depth analysis of a given topic. The continued mixture of classic and contemporary cases. Review questions at the end of each chapter that are primarily designed for students to perform self-assessments of their grasp of the material. Answers with explanations are included in an appendix within the book.

The Skeleton Code Alla

Campanella 2016-10-25 A

revealing look at what we hide

and why: "Funny, well-written,

and absolutely the best self-

help book I have come across

in a while" (Urban Book

Reviews). In an of age of social

media, computer hacking,

recorders on every new device

we can get our hands on, and

security cameras following

every shameless move we

make, privacy is a thing of the

past. Unfortunately, the

skeletons in our closets aren't

so gone, forgotten, or

protected. With one errant

text, unfortunate photo, or

midnight tweet, they can start

rattling. This tongue-in-cheek,

yet cautionary book explores

the many ways, and great

lengths we go to, to shield our

public personas, reputations,

and most embarrassing and

cringe-worthy secrets. With scores of funny and alarming interviews with people who didn't take extreme measures to guard their now-free and feral skeletons, it also outlines the strategies you can take to make sure your secrets never see the light of day. If you don't think you need the key to The Skeleton Code, you're treading the dark and increasing crowded waters of that infamous river called Denial.
