Exploring Cultural Competence in Professional Development Schools JoAnne Ferrara 2020-06-01 This book examines the ways in which PDSs build cultural competence for various stakeholders including pre-service teachers, classroom teachers, school leaders, college faculty, and K-12 students. Given the increased national attention on the opportunity gap present in underserved marginalized communities across the country, the authors in this series identify a combination of research-based practices and institutional changes that increase student attainment and develop educators' capacity to serve a range of diverse learners. We are certain the timeliness of the topic will provide educators with context for understanding the role PDSs play in the creation of culturally responsive schools.

Beyond Broadway Professor Stacy Wolf 2019-11-15 The idea of American musical theatre often conjures up images of bright lights and big city, but its lifeblood is found in amateur productions at high schools, community theatres, afterschool programs, summer camps, and dinner theatres. In *Beyond Broadway*, author Stacy Wolf looks at the widespread presence and persistence of musical theatre in U.S. culture, and examines it as a social practice--a live, visceral experience of creating, watching, and listening. Why does local musical theatre flourish in America? Why do so many Americans continue to passionately engage in a century-old artistic practice that requires intense, person-to-person collaboration? And why do audiences still flock to musicals in their hometowns? Touring American elementary schools, a middle school performance festival, afterschool programs, high schools, summer camps, state park outdoor theatres, community theatres, and dinner theatres from California to Tennessee, Wolf illustrates musical theatre's abundance and longevity in the U.S. as a thriving social activity that touches millions of lives.
