The Ultimate Scanner Bill Cheek 1995 What's the Ultimate Scanner? A radio receiver with wires, dials, knobs, switches and meters that were never on the manufacturer's plans? A discipline that leads into the next generation of scanning? A way to have it all: to cover all the bands, all the channels and miss nothing but

The Pied Piper of Tucson Don Moser 1967 It was Life and Time magazines that turned a local story from Tucson, Arizona, into a national abomination. Reporters came from all over, to be

sure, but on March 4, 1966, Life printed an ominous photo of the desert landscape where three girls had disappeared and the story of Charles Howard Schmid, Jr., or "Smitty," became international news. He had been arrested four months earlier on November 11, just after marrying a fifteen-year-old girl whom he'd met on a blind date. The article was published even before the juries in two separate trials had decided his fate. Dubbed "The Pied Piper of Tucson," for his ability to get girls to fall for him, he stood five feet, four inches tall, but added three more inches by padding his stack-heeled cowboy boots with rags and tin cans. He also dyed his reddish-brown hair black, used pancake make-up, whitened his lips, and applied a fake mole to his left cheek-a "beauty" mark. Arrogant and narcissistic, he came from a wealthy family, so he used the niceties he could buy to impress young high school girls. He adopted the droopy-eyed look associated with Elvis, his idol, and acquired a rock musician's mystique. His tiny

house on his parents' property was the scene of many parties. Tucson society was not merely shaken by the murders of three of their young women but by what the details of those murders revealed about its adolescent population-sex clubs, drinking parties, blackmail, cover-ups for murder, and even connections with the crime underworld. Parents suddenly became more strict, more aware now that their kids weren't safe and maybe weren't even behaving properly. When kids looked to someone like Charles Schmid for answers, there was something terribly wrong.

Immigrants as Outsiders in the Two Irelands

since the 1990s are faring today, this edition asks to what extent might different immigrant communities be understood as outsiders in both jurisdictions.

International Migration and Development in Eastern and Southern Africa Bariagaber, Assefaw 2014-08-23 The impact of international migration, both South-South as well as South-North, on the economic, social and political life of the people in Eastern and Southern Africa [was] not well documented and studied,- and 'the evidence-base for policy on migration and development [was] very weak.' With this in mind, OSSREA's invitation to conduct a study on international migration in Africa had the following objectives: To analyze the nature and type of South-South migration, focusing on issues, such as brain gain and/or brain drain, remittance flows, technical know-how transfers, violations of the right of African migrants and gender dimensions of migration; To investigate the dynamics of migration from Eastern and

Southern Africa to the Arab Gulf States as well as to developed countries, focusing on the skills of migrants, brain gain and/or drain, remittance flows, technical know-how transfers, violations of the rights of African migrants and gender dimension of migrants; and to assess the successes, impediments and challenges of African international migrants from Eastern and Southern Africa and to formulate policy recommendations to maximize the gains and minimize the costs associated with international migration in Africa.
